A photograph of a construction site under a clear blue sky with scattered white clouds. In the foreground, a large yellow and green crane arm extends from the left. The middle ground is dominated by several tall, grey steel structural frames for a building. A dark grey Haulotte forklift is parked on the dirt ground in front of the frames. In the background, there are green trees and a few workers in orange safety vests. The bottom left corner of the image is overlaid with a blue diagonal graphic containing the text "SABEMOS CÓMO HACERLO".

**SABEMOS
CÓMO
HACERLO**
